

So you wanna make movies?

Want to work on major features and television drama?

Then you need to

... Find out why the other departments and HoDs work the way they do?

... Read a script the way they do?

Want to meet and learn all this from leading industry professionals?

CineMasters

Features Departments Masterclass

18th/19th & 25th/26th October 2014

Pinewood Studios

A unique opportunity for new entrant film-makers to learn about on-set working direct from leading industry figures.

A four-day (two weekends) course for recently graduated, aspiring HoDs in camera, sound, editing and production design. It follows the development of a feature/ drama crew and its shooting script - from the initial Producer's Meeting with Camera, Sound, Editing and Design HoDs to the final script breakdowns of four departments and crafts you may not have had the chance to work with yet – Script Supervisor, Location Manager, Stunt Co-ordinator & Hair/Makeup Supervisor.

You will learn how the Producer decides what crafts are needed for the production; how the Art Director does a props breakdown for each sequence – and then acquires the props; what each of the additional crafts does, how they break down a script and - most importantly - how you, as a member of the camera, sound, editing or art department, can help ensure the whole crew works as efficiently as possible.

Tutors:

| | | | |
|--------------------|------------------------------------|--------------------------|---|
| Script Supervisor | <u>Penny Eyles</u> | Location Manager | <u>Christian McWilliams</u> |
